

# Extend Reach • Distribute Signals

Advanced signal conditioning made easy and efficient

# Optimize Board Space and Complexity

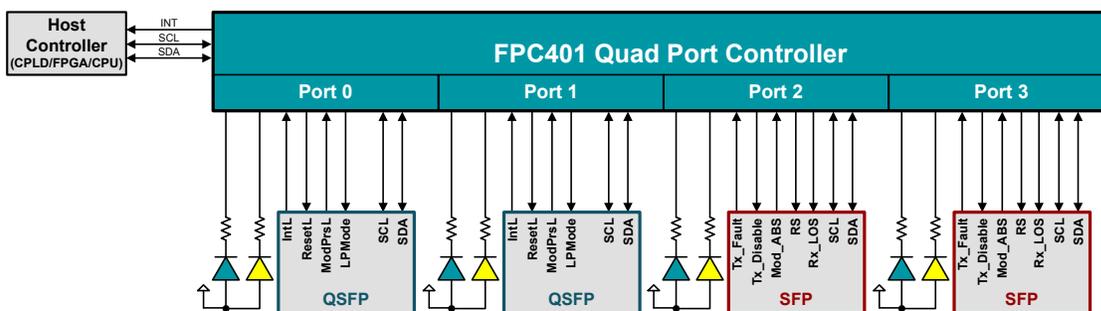

with Front Port Controllers (FPC) for SFP, QSFP, and Mini-SAS HD

- ✓ Improve routing congestion and simplify layout
- ✓ Reduce FPGA I/O requirements and cost
- ✓ Simplify BOM and eliminate logic, I/O expander devices

## How FPC401 works

Aggregates all low speed control and I<sup>2</sup>C signals across four ports into a single bus (I<sup>2</sup>C or SPI) to your host. Combines multiple front port controllers to manage up to 56 ports with a single two-wire interface. Enables direct addressing to every port and eliminates the need for polling.

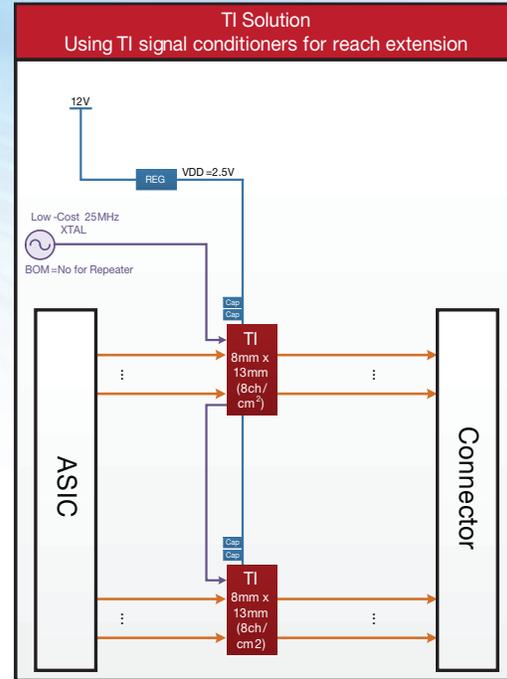

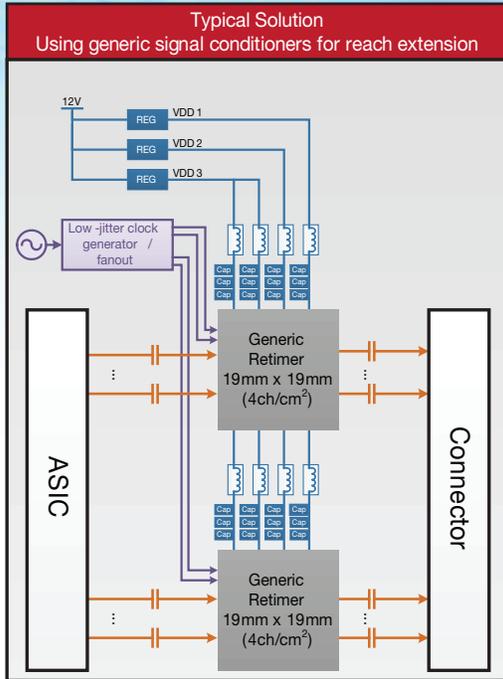

## Features

- Selectable SPI (up to 10 MHz) or I<sup>2</sup>C (up to 1 MHz) host control interface
- Integrated host-side level shifters: 1.8 V to 3.3 V, LED drivers
- Small package fits underneath SFP cage
- Automatic pre-fetch of key SFP+/QSFP+ data
- Daisy chainable: send minimum number of signals to host
- Eliminate discrete shift registers, I<sup>2</sup>C muxes, LED drivers, and I/O expanders

# Optimize Power and Cost

with pin-compatible 10/40/100 GbE signal conditioners

## Simple and flexible design

TI's pin-compatible portfolio of linear repeaters, retimers, and mux buffers enable performance and cost optimization in a common footprint. TI solutions use a single power supply, integrated AC coupling capacitors, and operate without a precision reference clock to simplify board design.

## Featured products for 10/40/100 GbE interfaces

Device	Function	Channels	Speed	Package	Pin-compatible
DS280BR810	Repeater	8	Up to 28 Gbps	13 x 8 BGA	✓
DS280BR820	Repeater	8	Up to 28 Gbps	13 x 8 BGA	
DS280MB810	Mux Buffer	8	Up to 28 Gbps	13 x 8 BGA	
DS250DF810	Retimer	8	20.6 to 25.8 Gbps	13 x 8 BGA	
DS280DF810	Retimer	8	20.2 to 28.4 Gbps	13 x 8 BGA	
DS250DF210	Retimer	2	20.6 to 25.8 Gbps	6 x 6 BGA	✓
DS250DF410	Retimer	4	20.6 to 25.8 Gbps	6 x 6 BGA	

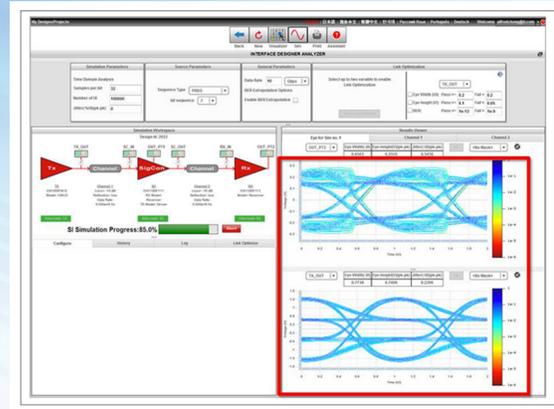

# Optimize Design Time and Effort

with TI design tools and reference materials

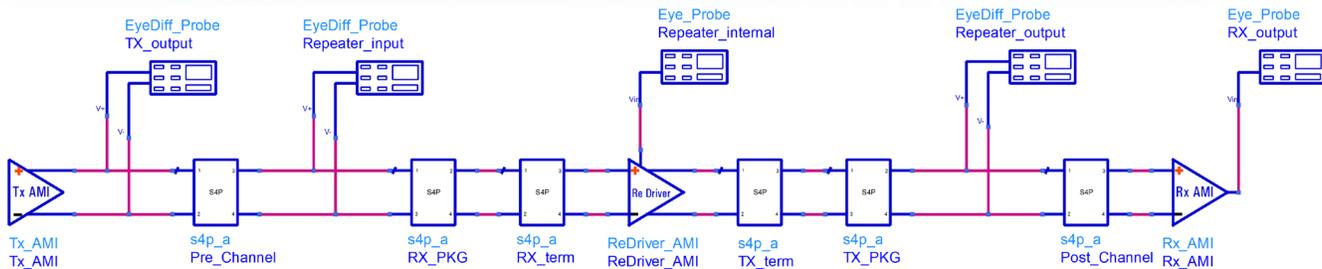

## Design Tools

Use WEBENCH®, a free simulator that can run on any machine. The Interface Designer allows you to:

- Easily create new high-speed serial interface systems
  - Analyze and enhance integrity for existing designs
  - Select the right interface devices for your requirements
- [ti.com/webenchinterface](http://ti.com/webenchinterface)

## Use TI retimer and repeater IBIS-AMI models to optimize your channel design

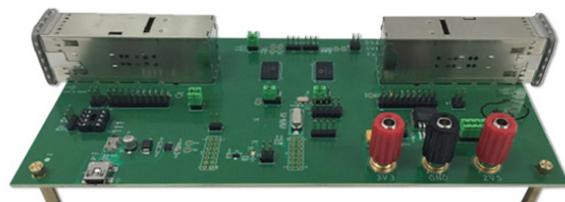

## Design Reference Materials

Find out how to optimize your high-speed serial links using green-box testing at: [ti.com/lit/slyt678](http://ti.com/lit/slyt678)

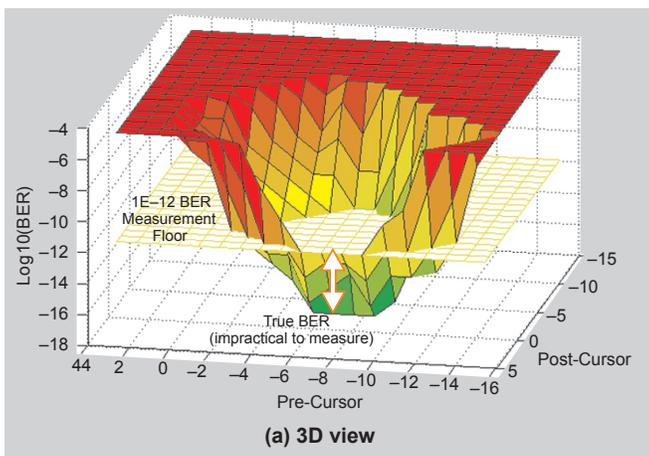

Check out more technical documents, tools & software, and signal conditioner applications at: [ti.com/sigcon](http://ti.com/sigcon)

Accelerate system design and layout using TI Reference Designs - available now! Find our 2-port 100GbE/40GbE/10GbE QSFP28 signal conditioner reference design at: [ti.com/tool/TIDA-00427](http://ti.com/tool/TIDA-00427)

Find our high-speed front-end reference design for PCIe Gen-3 cards at: [ti.com/tool/TIDA-00423](http://ti.com/tool/TIDA-00423)

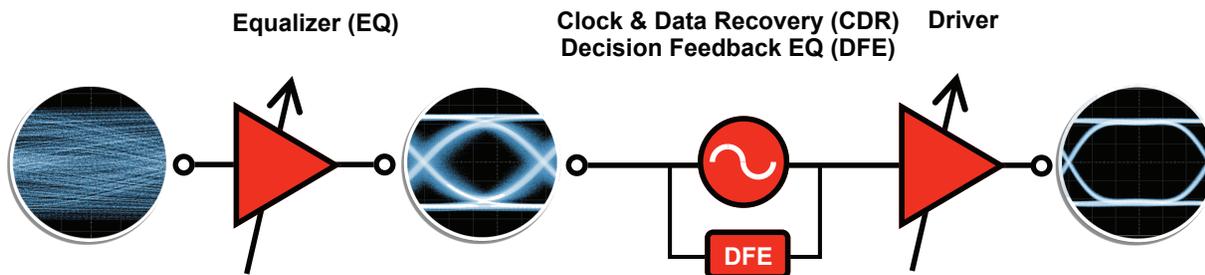

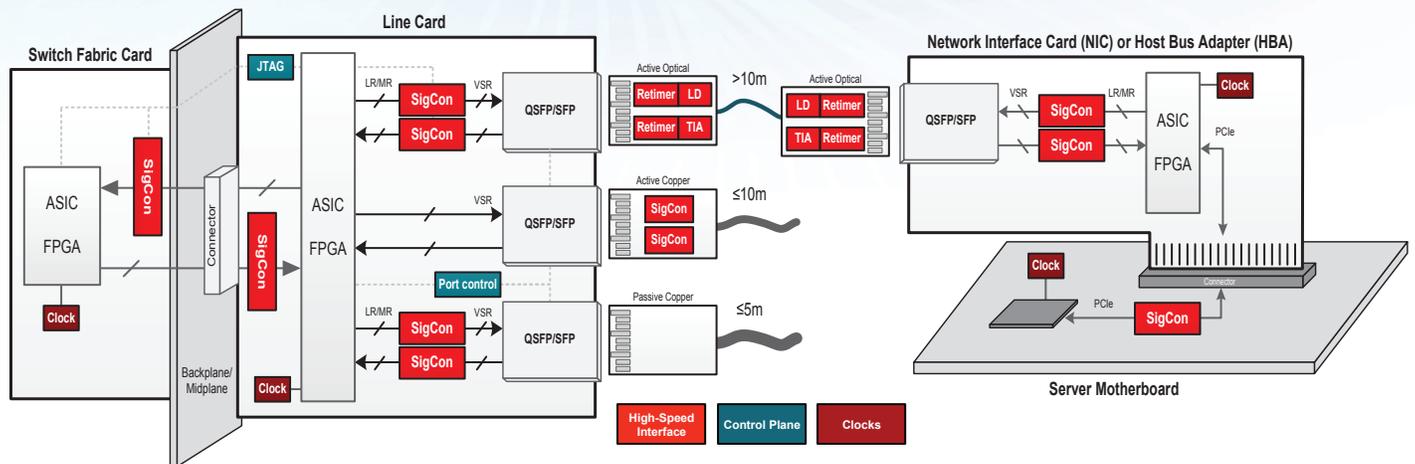

# Advanced Signal Conditioning Made Easy and Efficient

*Extend reach, eliminate jitter, and distribute signals*

Combining cutting-edge silicon process technology with advanced analog circuit design, TI is the market leader for enterprise class signal conditioning solutions. With a comprehensive portfolio of easy-to-use products for front port, backplane, peripheral I/O, optical and active cables applications TI enables complex architectures of advanced data communication systems while reducing the overall system cost. Additionally, TI's reference designs, on-line simulation (WEBENCH®) tools, application notes, and quality support reduces your time to market.

## Industry-leading interface solutions – backplane, front port, optical, active cables

Product	Function	Application	Standards
Retimer	EQ, CDR, DFE, Driver	Extend reach, eliminate jitter	10/40/100/200/400GbE PCIe, CPRI, Infiniband
Repeater/ Redriver	EQ, Driver	Extend reach	10/40/100/200/400GbE PCIe, SAS, SATA, CPRI
Crosspoint, Mux Buffer	EQ, Switch, Driver	Extend reach, distribute signals	10/40/100/200/400GbE PCIe, SAS, SATA, CPRI
Port Controller	Aggregate and manage	Simplify port management	SFP, QSFP
Optical Transceiver, Laser Driver, Limiting Amplifier, TIA	EQ, CDR, Driver, Amp	Optical module	1/10/100 GbE, 1/2/4/8/10 GFC, CPRI, 10G EPON

## IMPORTANT NOTICE FOR TI DESIGN INFORMATION AND RESOURCES

Texas Instruments Incorporated ("TI") technical, application or other design advice, services or information, including, but not limited to, reference designs and materials relating to evaluation modules, (collectively, "TI Resources") are intended to assist designers who are developing applications that incorporate TI products; by downloading, accessing or using any particular TI Resource in any way, you (individually or, if you are acting on behalf of a company, your company) agree to use it solely for this purpose and subject to the terms of this Notice.

TI's provision of TI Resources does not expand or otherwise alter TI's applicable published warranties or warranty disclaimers for TI products, and no additional obligations or liabilities arise from TI providing such TI Resources. TI reserves the right to make corrections, enhancements, improvements and other changes to its TI Resources.

You understand and agree that you remain responsible for using your independent analysis, evaluation and judgment in designing your applications and that you have full and exclusive responsibility to assure the safety of your applications and compliance of your applications (and of all TI products used in or for your applications) with all applicable regulations, laws and other applicable requirements. You represent that, with respect to your applications, you have all the necessary expertise to create and implement safeguards that (1) anticipate dangerous consequences of failures, (2) monitor failures and their consequences, and (3) lessen the likelihood of failures that might cause harm and take appropriate actions. You agree that prior to using or distributing any applications that include TI products, you will thoroughly test such applications and the functionality of such TI products as used in such applications. TI has not conducted any testing other than that specifically described in the published documentation for a particular TI Resource.

You are authorized to use, copy and modify any individual TI Resource only in connection with the development of applications that include the TI product(s) identified in such TI Resource. NO OTHER LICENSE, EXPRESS OR IMPLIED, BY ESTOPPEL OR OTHERWISE TO ANY OTHER TI INTELLECTUAL PROPERTY RIGHT, AND NO LICENSE TO ANY TECHNOLOGY OR INTELLECTUAL PROPERTY RIGHT OF TI OR ANY THIRD PARTY IS GRANTED HEREIN, including but not limited to any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI products or services are used. Information regarding or referencing third-party products or services does not constitute a license to use such products or services, or a warranty or endorsement thereof. Use of TI Resources may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

TI RESOURCES ARE PROVIDED "AS IS" AND WITH ALL FAULTS. TI DISCLAIMS ALL OTHER WARRANTIES OR REPRESENTATIONS, EXPRESS OR IMPLIED, REGARDING TI RESOURCES OR USE THEREOF, INCLUDING BUT NOT LIMITED TO ACCURACY OR COMPLETENESS, TITLE, ANY EPIDEMIC FAILURE WARRANTY AND ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT OF ANY THIRD PARTY INTELLECTUAL PROPERTY RIGHTS.

TI SHALL NOT BE LIABLE FOR AND SHALL NOT DEFEND OR INDEMNIFY YOU AGAINST ANY CLAIM, INCLUDING BUT NOT LIMITED TO ANY INFRINGEMENT CLAIM THAT RELATES TO OR IS BASED ON ANY COMBINATION OF PRODUCTS EVEN IF DESCRIBED IN TI RESOURCES OR OTHERWISE. IN NO EVENT SHALL TI BE LIABLE FOR ANY ACTUAL, DIRECT, SPECIAL, COLLATERAL, INDIRECT, PUNITIVE, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES IN CONNECTION WITH OR ARISING OUT OF TI RESOURCES OR USE THEREOF, AND REGARDLESS OF WHETHER TI HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

You agree to fully indemnify TI and its representatives against any damages, costs, losses, and/or liabilities arising out of your non-compliance with the terms and provisions of this Notice.

This Notice applies to TI Resources. Additional terms apply to the use and purchase of certain types of materials, TI products and services. These include; without limitation, TI's standard terms for semiconductor products (<http://www.ti.com/sc/docs/stdterms.htm>), [evaluation modules](#), and [samples](http://www.ti.com/sc/docs/sampterm.htm) (<http://www.ti.com/sc/docs/sampterm.htm>).
